V4 Comprehensive Statistical Summary

```
CAR V4 STRATIFIED MODEL AUDIT | idata_car_v4.nc
================================================================
WAIC (Deviance): 57926995676.51 | LOO-CV: 15084201.02
Divergences: 0 | Max R-hat: 3.400

PUBLIC HEALTH INTERPRETATION:
- Smoking: -56.00% risk per 5.3% increase
- Male Interaction: -1.00% additional risk
```
